RILIEVI DELLE GROTTI

Le Tavole dei rilievi sono ordinate secondo la serie dei numeri catastali delle Grotte che rappresentano.

Alcuni spostamenti di una o due pagine sono stati talora imposti da esigenze tipografiche.

Pochi disegni sono incompleti o approssimati: ogni caso è segnalato nella colonna Rilievi del "Catalogo delle Grotte".

Nella colonna Fonti dello stesso Catalogo sono indicati i Gruppi Grotte dai cui componenti sono stati eseguiti i rilievi.
