

SOMMARIO

- MARCO A. BOLOGNA, PAOLO A. AUDISIO, MAURIZIO BIONDI, ACHILLE CASALE - The biogeographical patterns of disjunct distribution with special emphasis on the Mediterranean and southern African model » 7
- RENATA MANCONI - The genus *Ephydatia* (Spongillina: Spongillidae) in Africa: a case of Mediterranean vs. southern Africa disjunct distribution » 19
- FABIO CASSOLA - Studies of tiger beetles. CLXVIII. Two interesting examples of Mediterranean-southern African disjunct geographical distributions: the *Cicindela* of the subgenus *Austrocicindela* and the genus *Platydelia* (Coleoptera, Cicindelidae) » 29
- ACHILLE CASALE, IGNACIO RIBERA - Are Molopina of the Euro-Mediterranean region related to the Madagascan, South African and Australian Pterostichini? (Coleoptera, Carabidae) » 33
- PAOLO AUDISIO, ALESSIO DE BIASE, ASHELY H. KIRK-SPRIGGS, ANDREW R. CLINE, MARCO TRIZZINO, GLORIA ANTONINI, EMILIANO MANCINI - Molecular biogeography of Mediterranean and southern African disjunctions as exemplified by pollen beetles of the *Meligethes planiusculus* species-group and related taxa (Coleoptera: Nitidulidae; Meligethinae) » 45
- GIUSEPPE M. CARPANETO - The Mediterranean-southern African disjunct distribution pattern in the scarab beetles: a review (Coleoptera Scarabaeoidea) » 67
- MARCO A. BOLOGNA, ANDREA DI GULIO, MONICA PITZALIS - Examples of disjunct distributions between Mediterranean and southern or eastern Africa in Meloidae (Coleoptera, Tenebrionoidea) » 81
- MAURIZIO BIONDI, PAOLA D'ALESSANDRO - Mediterranean-southern African disjunct and flea beetles: the example of the "black species" of *Longitarsus* associated with Boraginaceae (Coleoptera, Chrysomelidae, Alticinae) » 99
- MASSIMO MEREGALLI, DANIELE SILVESTRO - Assessing relationships between Mediterranean and Afrotropical taxa of Cleonini (Coleoptera: Curculionidae: Lixinae): a survey based on Bayesian analysis and lineage geohistory reconstruction » 117
- ROBERTO CALDARA, ENZO COLONNELLI, GIUSEPPE OSELLA - Curculionidae Curculioninae: relationships between Mediterranean and Southern African species (Coleoptera) » 133
- MASSIMO MEREGALLI - Niche shift: a tool for expanding range? The case of *Ocladius* (Coleoptera: Curculionoidea: Brachyceridae) » 157
- MASSIMILIANO SCALICI, FABIANA PANCHETTI, GIUSEPPE M. CARPANETO, GIANCARLO GIBERTINI - A contribution to the phylogeny of the elephant shrews (Mammalia, Macroscelidea) » 167
